PROJECT

- **To Do List Application :**

I have created a "To do list" application that performs create , edit, Update and delete command. it is useful app for daily uses.

- **Weather App:**

I build a weather app from scratch using React that shows temperature of that place with date , time and some other features such as pressure, humidity and wind.

- **PORTFOLIO WEBSITE :**

I created a portfolio website in which i used html5 , CSS3 , Bootstrap and Javascript language in front end and the contact data connected with google sheet.

SKILL

- **Front-End development :** **Html 5**
CSS3
Bootstrap
Javascript
Reactjs
- **Programming In :** **C**
C++
- **Other skills :** **Git**

ACHIEVEMENTS

- C language certificate
from **N.S.D.C. (SKILL INDIA)**
- Front End development certificate
from **Prepinsta prime**
- GitHub and Git certificate
from **Prepinsta prime**
